

# Advanced Flexible Composites

**Advanced Flexible Composites (AFC)** is a customer-focused, high performance composites company. Founded in 1988, AFC, a family-owned and operated business, has grown to become one of the most respected companies in the industry. With over 150 years of combined industry experience, AFC's employees are committed to delivering high quality, reliable products that are tailored to the needs of our customers. Three key principles have driven AFC's success: **Innovation, Quality and Service.**

AFC designs and manufactures PTFE and silicone-coated fabrics and belting for use in diverse industrial applications worldwide. Typical applications for AFC's products are found in industries such as aerospace, flexible packaging, screen printing, textile, polymer manufacturing, food processing, chemical, electronics and communications.

AFC prides itself in being a highly innovative, solution-oriented company. Through the establishment of strategic customer alliances, we have identified opportunities and developed new products that make significant improvements in customer applications. These partnerships could not be possible without the commitment to customer service—a cornerstone of our success.

In today's climate of acquisitions, mergers and consolidations, AFC is committed to remaining an independent company. Our vision is to become recognized as the most customer-focused supplier in the flexible composites industry.

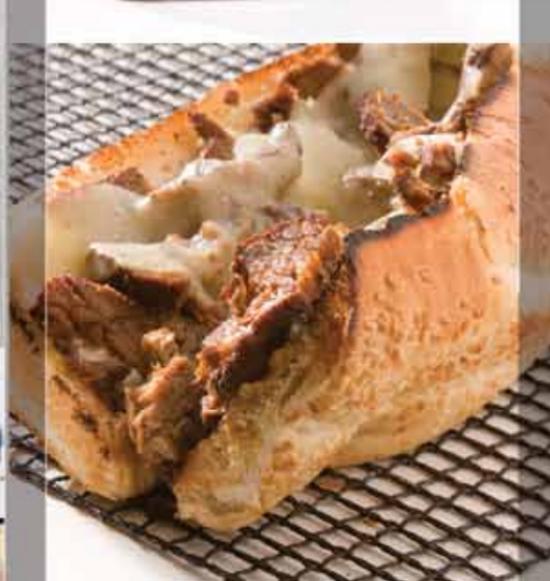

With multiple modern US based manufacturing facilities, AFC is strategically positioned to best serve its domestic customers and global partners.

speed toaster belt wrappers, mesh oven screens, and a variety of fabricated oven baskets and trays to meet both the oven and customers requirements. Typical applications for DuraChef™ products are toaster belts and release sheets for AJ Antunes, Marshall Air, Prince Castle and APW Wyott toasters, clamshell grill sheets for Keating, Taylor and Garland grills, oven screens, baskets and trays for TurboChef, Amana and MerryChef high cook ovens, release sheets for pretzels and cookies, pizza screens for deck ovens as well as many other applications. DuraChef™ products are suitable for food contact and will meet FDA standards.

AFC offers an extensive line of PTFE and silicone coated release sheets, high

# DURA Chef™

Your one source for premium cooking sheets and supplies.

- Toaster belts and sheets
- Clamgrill sheets
- Baking trays
- Oven liners
- High speed toaster belt wrappers
- Screens
- Baking liners
- High speed oven trays/baskets
- Cake ring liners
- Baking sheet
- Microwave liners
- Pan liners

*Sized to fit industry standards or custom manufactured to meet your specific needs.*

**AFC is committed to provide industry leading service and innovative smallwares to the commercial cooking industry.**

DuraChef™ products are specifically engineered to withstand the rigorous environment of the QSR/Restaurant industry. These products are manufactured from PTFE and silicone coated woven fiberglass substrates, utilizing AFC's proprietary coating formulations. Our DuraChef™ products are designed to be non-stick, offer excellent release and are resistant to oils, grease and chemicals. They are easily cleaned and maintained making them ideal for food service settings.

### Toaster Belts

Durachef™ Toaster Belts offer optimum release to prevent buns from sticking. Belts are available in either an extremely smooth surface for maximum release or a texturized finish for a mechanical release.

#### Standard DuraChef™ Toaster Belts:

- **Antunes Roundup** Toaster Belts  
2 Pack (11 1/4" x 30 1/4")—S90002
- **Prince Castle** Toaster Belt  
(12 1/4" x 33 3/4")—S90010
- **Marshall Air HST13** Toaster Belt Front Roller  
(13 11/16" x 31 7/8")—S90005
- **Marshall Air HST13** Toaster Belt Back Roller  
(13 11/16" x 31 7/8")—S90007

### Toster Sheets/Clamshell Sheets/Baking Trays/ Oven Liners

Durachef™ sheets are excellent for use in the most challenging applications, such as food processing, baking sheets, oven liners, clam shell grill sheets, toaster sheets, as well as many other applications.

#### Standard DuraChef™ Release Sheets/Liners:

- P90001: 105AB Black/Silver (11 3/8" x 30")
- P90002: 105AB Black/Silver (12 1/4" x 33")
- P90008: 24-03 Black (12 3/4" x 34 1/4")  
with Looped Ends
- P90044: 24-14 Black Oven Liner (17" x 20")

### Oven Liners

DuraChef™ oven liners are designed to catch drips and spills for easy cleaning. The durable PTFE composite is reversible and can be reused thousands of times. DuraChef™ oven liners will reduce clean up time while assisting to maximize efficiency.

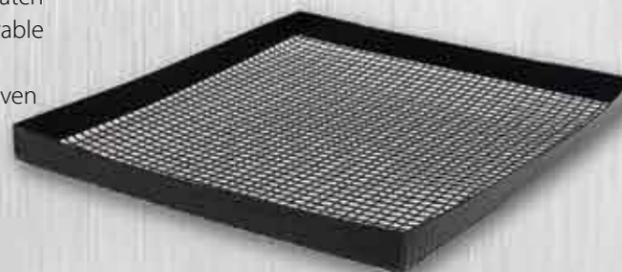

*“Two of the most important qualities I look for in a vendor are on-time delivery and competitive pricing and I receive both from AFC.”*

### High Speed Oven Baskets/Trays

Durachef™ designs and manufactures oven baskets/trays specifically for use in TurboChef, MerryChef, and Amana brand high speed ovens. The PTFE-coated fiberglass composite is designed to withstand the rigors of high speed ovens in the QSR industry.

#### Standard DuraChef™ Basket/Mesh Products:

- P80001: 28-31 Black Oven Basket  
(13 1/2" x 14 1/2")
- P80002: 28-48 Black Oven Screen (12" x 12")
- P80011: 28-48 Black Oven Screen (12" x 12")  
with 1/2" S&S Edges
- P80012: 111AB Black/Silver Solid Basket  
(11 1/2" x 13 1/2")
- P80015: 28-48 Black Oven Basket  
(11 1/2" x 13 1/2")
- P80017: 28-60 Black Oven Basket  
(13 1/2" x 14 1/2")

DuraChef™ oven baskets/trays are available in either a mesh or solid construction. The open mesh design allows airflow resulting in crispiness of crusts, breads, etc. While the solid design is ideal for preventing grease and food spillage.

### Oven Screens

DuraChef™ screens can be used to cook a wide variety of foods; including sandwiches, breads and pizza, as well as many others. Each screen is designed to complement both the oven and the food prepared. The open mesh allows for airflow resulting in crisper crusts and breads. The PTFE coating is non-stick and easy to clean. Available in different sizes and shapes to meet your cooking needs.

### Baking Liners

DuraChef™ baking liners are designed to make any baking sheet or pan non-stick. Liners are grease and oil resistant and have superior temperature resistance allowing them to be used over and over. They are available in any size required and are reversible.

Liners are available in black/silver, tan and black.

### grabNglide™

DuraChef™ **grabNglide™** fabric is a dual purpose sheet that is coated on one side with a nonslip silicone and other side is a PTFE nonstick surface. This ideal blend makes **grabNglide™** ideal as a bakeware liner, microwave oven liner or release sheet.

**AFC offers an extensive line of PTFE and silicone coated release sheets, high speed toaster belt wrappers, mesh oven screens, and a variety of fabricated oven baskets and trays to meet both the oven and customers requirements.**

Typical applications for DuraChef® products are toaster belts and release sheets for AJ Antunes, Marshall Air, Prince Castle and APW Wyott toasters, clamshell grill sheets for Keating, Taylor and Garland grills, oven screens, baskets and trays for TurboChef, Amana and Merrychef high cook ovens, release sheets for pretzels and cookies, pizza screens for deck ovens as well as many other applications. DuraChef™ products are suitable for food contact and will meet FDA standards. for food service settings. AFC is a global supplier and fabricates all products in the USA.
